USE OF THE FORM:

1. Borrowers use this form to plan and report the financial activity of their multiple family housing (MFH) project as required by Agency regulations. MFH project is defined by RD Instruction 1930-C.
2. For smaller projects, all specific operation and maintenance (O&M) expense line items may not need to be completed, provided that applicable O&M expenses are reflected within the appropriate O&M subtotals.
3. Use this form to establish initial budgets and rents, for monthly, quarterly or annual reports , to request rent changes , or to describe special servicing budgets (*RD Instruction 1930-C*).
4. Identify the accounting method used to prepare this form.
5. Significant changes to an Agency approved budget that occur during the budget operating year will require Agency review and approval according to RD Instruction 1930-C.
6. The three budget columns on this form are defined as follows. **Actual Expenses should be reflected under same line items as budgeted** (i.e., playground eq. budgeted Col. 1, line 26/27 - Actual expense should also be reflected at year end on lines 26/27).

CURRENT BUDGET - most recently approved budget.

ACTUAL - this period's actual activity.

PROPOSED BUDGET - next year's planned activity.

7. The three budget columns are used as follows:

INITIAL BUDGETS - Use PROPOSED BUDGET only.

MONTHLY REPORTS

PART IV—RENT SCHEDULE AND UTILITY ALLOWANCE

NOTES: (1) The rent schedule documents the rent and utility allowance structure and establishes the RENTAL INCOME entered in PART I, Line 1.

(2) The term NOTE RATE rent is used in place of the former term MARKET rent, to improve the description of the rental level. While the BASIC rent is the level required to cover all uses of cash and the repayment of the RHS loan at the interest credit reduced payment, the NOTE RATE rent is the level required to cover all uses of cash and the repayment of the RHS loan at the unsubsidized or promissory note rate. Consequently, the difference in the total revenue generated at the BASIC rent and the NOTE RATE rent is the project's total potential RHS interest credit available, or overage, that could be charged.

(3) When establishing rental rates, need for cash is established first.

(4) For each of the columns in PART V, enter the required information for each unit size.

A. CURRENT APPROVED RENTS/UTILITY ALLOWANCE: The current project rental rates, approved by the Agency according to RD Instruction 1930-C.

UNIT DESCRIPTION:

1. SIZE. The UNIT SIZE is: 0 for efficiencies; 1 for 1 bedroom units; 2 for 2 bedroom units, etc....

2. UNIT TYPE. This is used only to distinguish different rental rates for one UNIT SIZE. Example, "S" - small, "M" - medium, "L" - large. **Leave blank where there is only one rental rate per UNIT SIZE.** The valid UNIT TYPE codes are any letter. The only codes with specific references are:

R = Manager/Caretaker Unit, Reduced Rent

Z = Manager/Caretaker Unit, Zero Rent

3. NUMBER. NUMBER OF UNITS.

RENTAL RATES:

4. BASIC. BASIC RENT. *(Described in Note No. 2 above)*

5. NOTE RATE. NOTE RATE RENT. *(Described in Note No. 2 above)*

6. HUD. The HUD approved contract rent.

NOTE: When HUD grants an "automatic" increase to its fair market rents, but Rural Development does not approve all or part of the same increase (*RD Instruction 1930-C*), use the rent columns as follows:

BASIC RENT—Rural Development approved rent level at the interest credit reduced rate,

NOTE RATE RENT—Rural Development approved rent level at the note rate,

HUD RENT—HUD approved rent.

POTENTIAL INCOME FROM EACH RATE:

7. INCOME-BASIC. Multiply the NUMBER OF UNITS times the BASIC RENT, and multiply the result by 12. $[(NUMBER \times BASIC) \times 12]$

8. INCOME-NOTE RATE. Multiply the NUMBER OF UNITS times the NOTE RATE RENT, and multiply the result by 12. $[(NUMBER \times NOTE RATE) \times 12]$

9. INCOME-HUD. Multiply the NUMBER OF UNITS times the HUD RENT, and multiply the result by 12. [(NUMBER x HUDx12)]

10. UTILITY ALLOWANCE. Enter the appropriate of current or proposed utility allowance.

11. CURRENT APPROVED RENT TOTALS - BASIC. Add all entries in the INCOME-BASIC column.

12. CURRENT APPROVED RENT TOTALS - NOTE RATE. Add all entries in the INCOME-NOTE RATE column.

 - (3) When there is no proposed change to current rents, enter **CURRENT** RENT TOTALS on both CURRENT BUDGET and PROPOSED BUDGET column.
 - (4) Actual rental income will be entered on the ACTUAL column.
- b. For budgets with less than annual (*monthly, quarterly*) reporting periods:
 - (1) Enter CURRENT RENT TOTALS on the CURRENT BUDGET column.
 - (2) Actual rental income will be entered on the ACTUAL column.
- c. Enter effective date of change proposed. Check existing or proposed an complete breakdown for services by BR size.

PART V -- ANNUAL CAPITAL BUDGET GENERAL INSTRUCTIONS

1. Prepare Part VI of this form when the proposed budget or the annual report of actual expenditures include capital items funded from the Reserve Account or the General Operating Account (GOA).
2. Entries included in Part VI are considered major capital expenditures and should not be duplicated expenses entered on Part II. Part II should only be used for minor routine repair and/or replacement. This distinction is necessary to assume comparability of costs during the budget approval process.
3. Recording the proposed capital use on Part VI does not constitute a reserve account withdrawal request. Follow the request authorization process of RD Instruction 1930-C, Exhibit B, 2a.
4. With Agency approval, capital expenditures may be paid from the GOA when funds are available, as long as the financial integrity of the project is not affected. In most cases, the reserve account should be used as the primary source for capital expenses.
5. This form provides several general descriptions of typical items. You should attempt to categorize your capital expenses in the most appropriate line.
6. This form is separate into four columns Proposed/Actual from Reserve, Proposed/Actual from Operating, Number of Units and Proposed/Actual Total.

Proposed/Actual from Reserve - use when entering the proposed unit cost of each item to be funded or has been funded from the reserve account.

Proposed/Actual from Operating - use when entering the proposed unit cost of each item to be funded or has been funded from the operating account.

Number of Units - use when entering the number of quantities being replaced or repaired. However, there are some circumstances when you will not have to enter a unit figure, such as for roofing and siding.

Proposed/Actual Total - complete by entering either the proposed/actual expenses multiplied by the number of units, or the total cost for the item when not multiplied by a figure in the number of units.

PART VI—SIGNATURES AND COMMENTS

Borrower and Rural Development signatures are completed as appropriate. Check the comment area if additional comments, disclosures or analyses are attached. Comments are encouraged to better explain the contents of the submitted budget. Document additional relevant information or record issues or concerns noted during review.
